

Arillas Trail

The Arillas Cultural Organization in cooperation with other residents and the Business Association , have made efforts to create a foot path between the two main roads of our Area, as well as a walking trail that starts at the beach between Thallasa Restaurant and Kostas on the beach Taverna along the Arillas Stream, up to the bridge after the bakery and then all the way to the olive-groves of the Agricultural area of our village. It leads in to areas that have not been easily accessed by visitors until today as there have not been any signs of orientation.

Walking through this trail you will be able to observe Arillas from a different point of view in a fantastic environment of plants and trees where time has stopped many years ago.

The paths that you will walk on, are created mainly in order to access everyone's harvest for transporting it to the local olive press. There are no buildings but the only signs of modern civilization are the nets that are used to collect the olives.

Turn here *

follow here*

The Journey is about 8,5 Km and it should take about 2 hours. It is HIGHLY RECOMMENDED to use GOOD WALKING SHOES as well as to TAKE MUCH WATER with you. DO NOT FORGET your camera. The walk is free for everyone.

Anyone using this walk does so at their own risk!

****Follow the red and white signs as above and enjoy.****
